

Walara Series 425W G3P

Australia's first manufactured n-type solar pv module.

- Australian Made.**
The Walara Series is a true evolution in Australian renewable energy industry manufacturing. Designed and engineered by a local team based in South Australia who are available for service and warranty support.
- High Efficiency Cells.**
The first Australian made panel featuring N-Type technology intergrated into premium power class laser-cut bifacial cells for higher output, higher efficiency and increased durability.
- Intelligent Design.**
Specially designed stronger, rigid 35_{mm} frame with less flex, protecting the cells and increasing integrity and longevity through less micro-cracks.
- Zero Defect Manufacturing Process.**
Our Zero-Defect Manufacturing process guarantees that every Tindo panel undergoes rigorous testing at 7 predetermined quality checkpoints ensuring high performance for the lifetime of the product.
- Proven Performance in Australia's Harshest Conditions.**
Our panels are mounted and performing everyday at the Desert Knowledge Testing Centre in Alice Springs. Tindo panels are consistently one of the highest performing panels at the centre. – dkasolarcentre.com.au
